

Gallagher Locker Management Solution

Gallagher Locker Management allows a site to manage locker access, automate allocation, and ensure the best utilization of their locker resources all natively from Command Centre.

Allocation

Four allocation modes are supported providing flexibility for customer preference:

- Self-allocation (random locker allocated upon presentation of a credential at a T20 Terminal)
- Administrator allocation (using Command Centre)
- System automated allocation (using a scheduled Bulk Change in Command Centre)
- System automated allocation (using Gallagher's Cardholder REST API)

A user can have multiple lockers allocated per locker bank, (e.g. a team locker and a personal locker) using any of the allocation modes.

Expiry

A range of expiry modes can be configured to help ensure high locker utilization, for example:

- Allocate for 'x' hours
- Expire all at a specified time
- One time use (with grace period)
- Until next occurrence of HH:MM (i.e. up to 24 hour access)
- Until DD/MM/YYYY (e.g. end of week, month, semester, or year)
- Permanent allocation

A privileged administrator can optionally adjust expiry dates on an individual as-required basis.

Locker expiry notifications ensure your assets remain protected until end of locker allocation via email or SMS.

Operation

The user presents their credential at the T20 Terminal located near the locker bank. Their allocated locker is displayed on screen along with the date/time that access will expire. If a user has been allocated multiple lockers, the user can select which locker to open.

For administrator or system automated allocation, users can be informed of allocation via email or SMS.

Credentials

Support for PIN and user code.

Support for most credentials including DESFire® EV2 cards and mobile credentials. Mobile credentials are hosted in the Gallagher Mobile Connect App (which uses Bluetooth® wireless and NFC technology).

Gallagher Locker Management Solution

Administration

The Command Centre Locker Viewer provides a dynamic and interactive list of all lockers on site, filterable by Division and Locker Bank.

Privileged administrators are able to:

- View current allocations and available lockers
- Allocate/remove lockers
- Modify expiry dates
- Open lockers
- Run locker reports

Locker Name	Locker Bank Name	Status	Allocated To	Allocated From	Allocated Until
A1	Locker Bank A	Allocated	Grant Howland	22/07/2019 12:00 AM	31/12/2019 11:59 PM
A2	Locker Bank A	Allocated	John Smith Emma Bennett		31/12/2019 11:59 PM
A3	Locker Bank A	Free			
A4	Locker Bank A	Free			
A5	Locker Bank A	Free			
A6	Locker Bank A	Free			
A7	Locker Bank A	Free			
A8	Locker Bank A	Free			
A9	Locker Bank A	Free			
A10	Locker Bank A	Free			

Configuration

Locker banks and lockers are configured in the Command Centre Configuration Client. Flexible configuration allows a range of allocation modes to be deployed. Alternatively, locker banks and lockers can be easily imported into the Command Centre Configuration Client using our Locker Configuration Utility.

Visibility

Improve site visibility and situational awareness by adding lockers to site plans. View allocated lockers and unallocated lockers. Open individual lockers and run locker reports from a site plan.

Icon	Description
	Locker unallocated
	Locker allocated

Secure

Locker forced alarms help protect your assets. Alarms can be sent via email and SMS. Locker occupancy is hidden from view, (i.e. no locker LED to show which lockers are in use).

Reporting

Command Centre makes it possible to easily view audit trails reporting on locker activity. This allows a business to understand levels of activity (both high and low) and adjust accordingly.

REST API support

Open lockers from a third party system using Gallagher's Overrides REST API.
