

Gallagher | Nedap

Long Range Access Solutions

Long range access allows the controlled movement of vehicles and people, all at a distance. Combining Nedap's long range automatic vehicle identification (AVI) with Gallagher's Command Centre system, we can provide solutions that save time, improve security, and keep people safe.

Gallagher | Nedap solution benefits

- Save time with automatic barrier/gate activation prior to a vehicles arrival. Drivers don't need to exit, and freight can move without interruption to where it is needed.
- Reduce risk and prevent liability issues by combining Command Centre's ability to monitor competencies with Nedaps long range access functionality. Expired or insufficiently trained card holders will be prevented access from selected site sectors along with their vehicles. Comprehensive audit trails are kept making all this entry/exit information available for reporting.
- Save costs by automating process that reduce the need for costly labor.

Gallagher | Nedap integration features

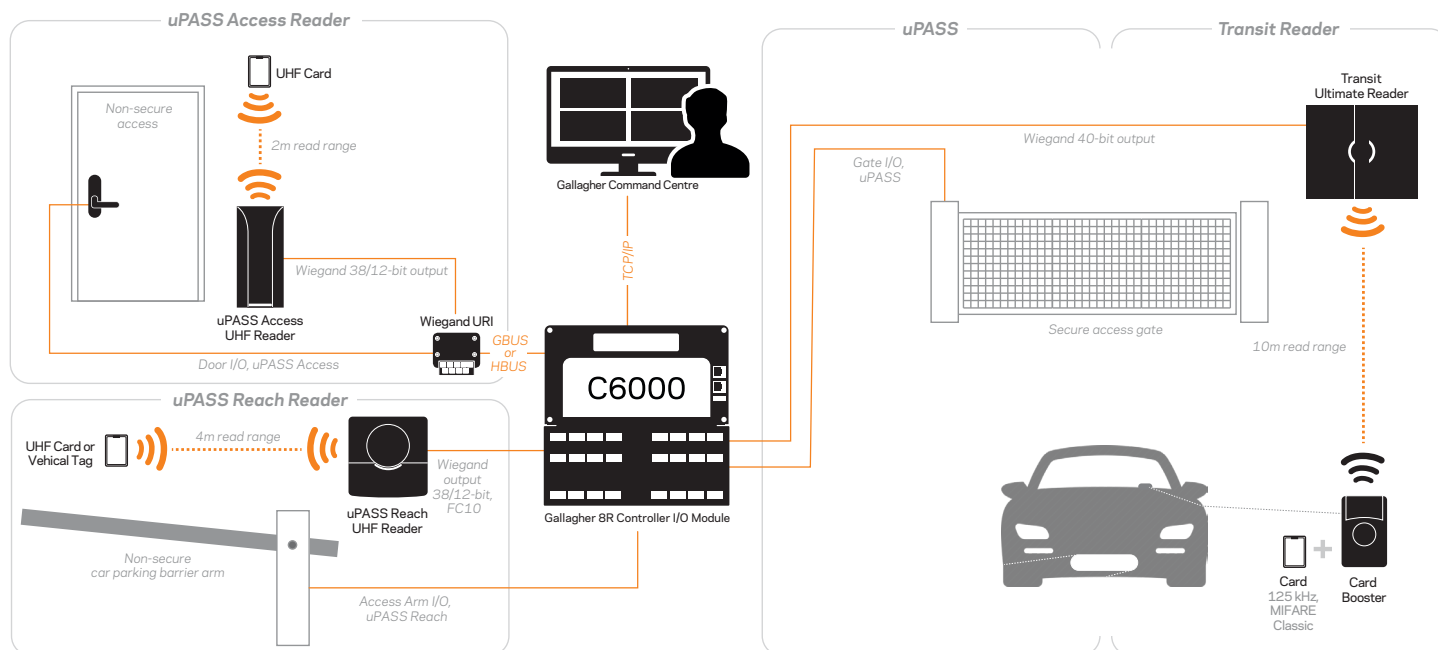

- Easy integration into existing systems
- Vehicle and driver only identification tags/boosters
- Integration of Gallagher personnel access cards (125Khz or MIFARE®)
- Read range up to 10m (33 ft)
- Read object speed up to 200 km/h (125mph)
- Adjustable read range shape and distance
- UHF 900MHz options for cost effective non secure applications

How the solution works

The integration between Nedap and Gallagher, is made possible with the power of Gallagher Command Centre. A wide range of deployment options is possible, from long range vehicle access to UHF door control.

Solution architecture

Supported products

A wide range of Nedap products can be integrated seamlessly with the Gallagher solution, a selection of currently supported products are displayed below. For more detail, please contact your nearest Gallagher representative.

uPASS Reach UHF Reader
Long range UHF reader (up to 4m)

uPASS Target UHF Reader
Extended range UHF reader (up to 10m)

uPASS Access UHF Reader
UHF reader (up to 2m)

Transit Ultimate Reader
Long range vehicle access reader (up to 10m)

Transit Smartcard Booster
1.0m booster for vehicle and driver
ID transmission

Accessories

A comprehensive selection of accessories and supporting technology is available to tailor your solution to your specific requirements, examples are shown below. For a complete list of Nedap accessories, please contact your nearest Gallagher representative.

uPASS Reach Pole Mount

Transit Compact Tag

uPASS UHF Windshield Tag

UHF MIFARE Card

Transit Ultimate Window Tag
