

Gallagher Command Centre to HID Origo Integration

HID
ADVANTAGE
Technology
Partner

Complete Automation of HID Mobile Credential

Managed cloud service

24/7, 365 days availability
99.9% network connectivity
and uptime

Rapid Setup

Ready to use API Connectors and SDK

Updates

onUgo maintains all API updates from
Gallagher and HID

Support Service

Access to Gallagher and HID integration
support via one support number

Connect Portal

Configuration and management of
API's from one Connect Portal

Automation

Real-time access control process
automation

ONBOARDING

Assign an access group to a Cardholder in
Gallagher Command Centre to enrol
cardholder to HID Origo Portal.
Cardholder will automatically receive an
email invitation for HID Mobile Access
App.

Once the Credential is activated and a
card number is assigned by HID, the card
number is automatically added to the
cardholder in Gallagher Command Centre.
Cardholder can access the site using HID
Mobile Access credential in real-time.

OFFBOARDING

When a card is removed from a Cardholder
in Gallagher Command Centre, this will
trigger an instant HID Mobile Credential
removal from the cardholder's mobile
device.

Deleting a Cardholder in Gallagher
Command Centre will remove the user
from HID Origo Portal.

Gallagher License Requirement

C12772	ALARMS AND EVENTS REST API
C12784	LIC REST CARDHOLDER API
